▶ 오픽에 관한 Ellie쌤의 코멘트

1. 응시일로부터 25일 이후에 다음 응시가 가능. Waiver 제도를 통해 25일 안에 시험을 재응시 할 수 있으며 150일 단위로 부여됨.(횟수 제한 없음)
2. 외운티가 나면 NH 등급이 나오는 경우도 있음. 외운 답변으로 간주되는 경우 감점. 특히 경험 관련 답변에 대해 이를 엄격하게 적용하고 있기 때문에, 경험 문제는 답변을 교재에 있는 그대로 사용하기 보다는 자신의 경험을 반드시 가미하여 연습하고, 녹음을 통해 자연스럽게 만들 필요가 있음.
3. 질문 다시 보기(리플레이)를 한다고 하여 점수에 영향을 미치지 않으므로 시험 중 생각할 시간을 충분히 확보하는 전략으로 활용할 것.
4. 교재에 있는 답안을 전부 외울 필요는 없음. 본인이 하고 싶은 말에 도움을 받는 정도면 충분. 완전히 암기를 하려는 경우는 더 어색하게 느껴지는 영어가 될 수 있으므로 내가 할 수 있는 말의 수준보다 살짝 삶을 보려는 것처럼 학습하는 것이 유리함.

1. 집 [House]

	How has the <u>style of homes</u> changed over the past 5 or 10 years at where you live? Are the homes being built today different from the homes built 10 years ago? Apartments in the past used to be built much lower, compare to them now. Back in the day, they used to be about 5 to 10 floor high with no elevator. (It was low-rise apartment.) But now, most apartments are a lot taller than that. As far as I know, some have more than 50 floors. ^{high-rise apartment.} And people can easily customize their houses and normally extend living room out to the balcony. There are the differences between apartments in the past and now.
Q.14	Compare how you solve problems in your home to how your parents or friends solve problems that occur in their homes. How is it the same? How is it different? I just want to say that when it comes to repairing, my dad and I are a little bit different. For example, if something is broken, in my case, I just call up the repairman right away to get a help. But my dad, he always tries to fix it by himself. Frankly, he is really good at repairing anything like furniture, electronic devices or something. That's the difference between us, when something comes up at home.
Q.15	Think of a time when the <u>issue regarding housing</u> was in the <u>news</u> in your area. What was the issue and why were people talking about it? Perhaps, there are too many people who are looking for homes. Or there are too many homes out on the market. Talk about the <u>news</u> you remember watching about homes people live in. How did people deal with that issue? ^{difficult.} Hmm. That's tough question. Housing market. I'm not that interested in housing market that much. But as far as I'm concerned, the main problem when it comes to this is <u>rising housing prices</u>. It literally costs an arm and a leg. ^{특히 한채만} The other day, I watched the news about a signal of price reduction of the apartment in Korea. But for ordinary people, they are still not affordable prices. I think any actions must be done to solve this problem.

2. 음악 [Music]

Q.14	Pick <u>two different kinds of music</u> or composers. Compare the similarities and differences between them. Well, Actually, I like music regardless of the genre. First, I especially love listening to <u>dance</u> as it's energetic. It has a fast beat, and it's so exiting/that it often gets me in the mood for dancing. (음악 1번) On the flip side, when I feel like frustrated or feeling down, I prefer to listen to <u>slow music</u>. Those songs also help me concentrate on my task like studying or reading and stuff like that. <u>It makes me calm down.</u> I definitely love both of them, because they make me feel good in any way. So, literally I love various types of music. <u>내용</u> 모든 장르 좋아하지만 댄스 VS 느린 곡.
Q.15	What new electronic gadgets or equipment are people/who like music interested in these days? What new products excite them and why? <u>Usually</u> Most of the time, people in Korea listen to the music on smart phones. Because we can access to the Internet outside, and no need computer anymore. I think, smart phone is the <u>most brilliant technology</u> in the world. (인터넷 1번) I also listen to music on my smart phone, so it does not <u>really</u> matter the place and time. Literally, I ^{can} am able to play some music <u>whenever or wherever I want</u>. for example like, on my way to school, on the bus or subway, or in a cafe, or when I'm doing domestic task at home.. like cleaning or doing dishes..you know what I mean?(음악 2번) <u>내용</u> 스마트폰으로 음악 들음. 3. 공원 [Park]

	Please tell me about the activities people do at a park you often visit. What sorts of things do <u>children</u> do? How are they similar to or different from what <u>adults</u> do? Give me as many details as possible.
	Adults normally go to parks to get some exercise or get some fresh air. There are lots of sports facilities such as tennis courts. So, they do <u>various sports</u> and take walks, ride bikes or go for a run. And some of them walk their dogs there as well. On the other hand, children go to parks to <u>hang out with</u> their friends and family. Usually, parks have a playground for kids, so they go on rides such as <u>swings</u> or <u>slides</u>. And they play with the <u>sand</u> or play with a ball there. So, there it is.
Q.14	Pick 2 popular parks that you know of. Tell me about their <u>similarities</u> and <u>differences</u>. There is a <u>small park</u> very close to my house. It's not that big, but it has a lot of sports facilities such as tennis courts. So people go there to do <u>various sports</u> and take walks, ride bikes or go for a run. And some of them walk their dogs there as well. - On the other hand, there is another park that is much bigger. The name of the park is <u>Alh Park</u>. There is a <u>large lake</u> in the middle which is the best part of this park. And there is a <u>fountain</u> and a lot of trees, flowers and grass. So I can always see a lot of people who <u>go on picnics</u> or dates to the park. Overall, both parks are very pleasant to visit.
Q.15	I'd like to know the main issue related to public parks today. What is the <u>biggest problem</u> that <u>users of public parks</u> face? What needs to be done to solve the problem? Tell me about it in detail. To be honest, I <u>can not recall</u> any issues about public parks. Because most of parks are very <u>well-managed</u> in Korea. So I don't think parks have that many problems these days. The only issue that I can come up with is <u>some people throw away garbage</u> at parks after the picnic. I think those people don't care that they make the park look dirty. How selfish! I think it is also good idea to take pictures when you find that scene right away and post them up! Then we can share the idea how to keep the park clean. That's all I wanna say regarding this question.

Q.14

+ 스마트폰 (정보)

Most people say that traveling has become more difficult in the past five years. Tell me what types of changes you have observed when traveling.

How has traveling to other countries changed over the years? Is it easier or more difficult?

Well, I don't think so.
~~Well, I beg to differ.~~ As far as I'm concerned, traveling has become way much faster and easier than in the past.

For example, transportation has become way much faster over the years.

When I was way much younger, it took more than 5 hours, when we went to Seoul from Busan. But nowadays, thanks to KTX, it only takes 2 hours.

And what else, plan tickets have become much cheaper and some flights only cost half the price. Also thanks to GPS, we don't need to ask for directions and get lost any more.

So I can say, when it comes to transportation, it has changed a lot over the last 5 years. (지형 extra-Q)

When people talk about traveling, what are the main issues or concerns they raise or discuss?

I think, Corona virus ^{is} ~~has been still the most~~ serious issue, regarding traveling, for sure. It's ~~been~~ already more than 3 or 4 years, since the Corona was at its worst. I still remember watching the news about it like, the government declared a national health emergency and it also implemented quarantine measures for suspected patients.

Now, thankfully, we live in an age of post Corona. But still, the issue has not ~~been an end~~ finished, So this is the main issue.

Because some people around me are still suffering from the virus.

Anyway, this is the recent event when it comes to traveling.

When people discuss traveling to other countries, what are the things that they are most interested in doing or seeing?

Q.14	Could you compare the movies <u>made</u> today to movies you watched while you were growing up? How have <u>movies changed over the years</u>? What are the differences and similarities? (비슷한...) At that time, most of people watched <u>foreign movies</u>, and there was the TV program, named Saturday-classic-movies, which I watched that every Saturday with my family. Honestly, I can not remember any of Korean movies there. That means, back in the day, Korean movies were <u>underestimated</u> and considered old-fashioned. <u>But</u> these days, now that Korean movies <u>have become</u> a lot better than in the past, and have experienced remarkable growth, so they are very fun to watch and entertaining. Can you tell me about some different ways people watch TV programs? How has it changed over the last 10 years? Back in the day, when I was younger, visual technology was not very advanced. (인터넷 3번) People used to watch movies or anything <u>on TV at home</u>. And normally there was <u>only one television in one house</u>. So as I remember, there was a <u>mad scramble for the remote control</u>, at times. <u>Now</u>? Of course, I use <u>smart phone</u>. So it does not really matter the place and time. Because we can access to the Internet outside, and there are many <u>OTT-services like Netflix, Disney-plus and everything</u>. So no need TV anymore. I think, smart phone is the most brilliant technology in the world. People pretty much use this every single day and we can do almost everything on it. It seems that the household chore that men and women do in the home has changed in recent years. What chores or responsibilities have changed? Why do you think this has happened?

According to traditional Korean culture, ^[주요] most house chores used to be the responsibility of women. ~~Just a few decades ago, there was a distinct separation in the roles of wives and husbands at home. (While men were supposed to work outside as the breadwinners, women were responsible for taking care of the home and children.)~~ However, gender roles have drastically changed these days. I believe it is because of the increasing roles of women in the workplace. That's why men and women started to share the responsibilities of chores more equally.

1. 식당 [Restaurant]

	Many restaurants are changing their menus to suit customers who are more health-conscious.
	Many fast-food, take-out or delivery restaurants are now offering healthy choices. Why do you think this change has come about in recent years?
	What kinds of changes in restaurants or eating out have you noticed over the last few years? How was eating out different?
Q.14	Many people are really busy. We can not manage to pick up some food and cook every single day. Of course, home-cooked meals are the best, but we sometimes don't have time to cook by ourselves. So we order in more often than in the past. (산업 1번) Meanwhile, we've become much more health-conscious than in the past. We think about our health even when we go out to eat or order in. For example, in my case, I wanna know how many calories I'm taking in. Due to this trend, many restaurants have developed healthy menus.
	Chain restaurants such as McDonald's have a set menu you can expect. On the other hand, small local restaurants have their own menus and you may not be able to know what to expect. Talk about your experience of going to a chain restaurant and a local restaurant. What was the biggest difference?
	I think restaurants are quite similar in Korea. I mean, when it comes to the menu, there could be some differences, of course. But I don't think it's because it's a chain or local one. Well, I don't think there is a big difference between them. Both of them provide delivery services, so we can conveniently use, and they also have various menu depending on their specialties. So, in a nutshell, there are few or no difference in a major factor of restaurants, no matter chain or local one.
Q.15	What are the latest trends people are talking about related to take-out or delivery food options? Perhaps it has to do with ordering online or an app. Or, it has to do with some new kind of menus. Discuss the changes that you have observed recently regarding take-out or delivery food options.
	- 산업 2번 답변 (Intro+Body 부분) + Overall, delivery food options have come a long way, thanks to this kind of an application.
	When your friends or family discuss restaurants, they like or dislike, what are some of the characteristics they discuss the most? I love to have meals with my loved people. So, when it comes to restaurants, my friends and I talk about the service quality the most. So mostly before going out for lunch or dinner, we search online to find decent restaurants by googling. We like to discover the hole in the wall. :) And..what else.. we talk about the price or the mood as well. That's all I can think of, right now.

2. 모임 [Gatherings]

Q.14	Gatherings and celebrations in small towns are often different from those in big cities. Tell me about some of the similarities and differences between the celebrations people have in small towns and in big cities in your country.
	I think gatherings are pretty much the same wherever we are. I mean, it doesn't matter if we live in a big city or a small town at all. [-인트로문장 이후에는 모임 1번 답변과 동일하게 이어나가기!]
	How were gatherings and celebrations when you were a kid? How are they different now? What kinds of events are popular more recently?
(내용)	Frankly, gatherings have not changed that much over the years. -인트로문장 이후에는 위의 답변과 동일하게 이어나가기! + 크리스마스~
Q.15	What kinds of concerns do you hear people express when they have gatherings and celebrations in our area?
	celebrations and gatherings are important to people living in a city or town. Was there a discussion among people related to organizing an event recently? What was the issue or difficulty people were discussing?
	I think Corona virus has been still the most serious issue, regarding gathering, for sure. It's been already more than 3 or 4 years, since the Corona was at its worst. I still remember watching the news about it like, the government declared a national health emergency and it also implemented quarantine measures for suspected patients. And we needed to keep social distance in public, and we had curfew for places, including restaurants or bars. And there was a strong ban on private gathering. But thankfully, we live in an age of post Corona. But still, the issue has not been an end. Because some people around me are still suffering from the virus. We still feel uncomfortable when we gather in public and avoid crowds. Anyway, this is the recent issue when it comes to gathering. [여행 15번 '코로나' 답변과 동일 - 주제어인 'gathering'만 변형]

3. 음식 [Food]

내용: local markets vs. 지금: online shopping.

Q.14	How has <u>food shopping</u> changed over the last 20 years? What are some of the trends or changes you have noticed when comparing shopping today with that of the past? People used to get food at <u>local markets</u> in the past. And it took some time to find the food that they wanted to buy and had to carry them all the way back home. But now, online shopping is all the rage and it's big trend in Korea. (Thanks to that,) we can browse all the items with just one finger. And it has delivery service as well. So I don't need to go and pick them up in person. That's the biggest difference of food shopping, I guess.
Q.15	They're sometimes news reports on food. Food can get contaminated or be affected by dangerous bacteria. Talk about a <u>news report</u> you watched or read about regarding a food-scare incident. I remember watching the news about a massive <u>food poisoning</u> incident at a <u>school</u> last summer. The news said, something was wrong with the food at the student cafeteria. The food went bad because of weather. <u>식중독</u>. As I remember, it was like sauna. That's why the food was contaminated by bacteria. And they said, most of the students were hospitalized. I mean, the whole school got seriously sick. As far as I know, the incident raised awareness for food safety issues. <u>upset stomach</u>.

4. 건강 [Health]

What did your <u>parents' generation</u> think people have to be like to be healthy? How does that compare to what <u>your generation</u> believe? I think that people in the past <u>cared</u> relatively <u>less</u> about their health then now. In contrast, many people today care about their health more and they tend to be more health-conscious. For example, (in my case,) to be more healthy, I really take care of my diet on my <u>regular day</u>, as much as I can. And I try to eat something light and try not to eat too late, too salty or greasy like junk food. (건강 3번) Plus, people receive medical checkups more frequently nowadays. (In a nutshell) people are much more conscious about their health now.
Q.15	Tell me about a recent new story that you saw related to <u>health issues</u>. Describe what the issue was about in detail. How did your community react to the news? - 음식 15번 답변과 동일
